We would like to write a testimonial for George Bocska of FastTrakU. George was recommended to us by a business acquaintance who unfortunately, had been caught up in a particularly bad lease. After George had become involved in the negotiations, he was able to renegotiate the existing lease on considerably better terms.

What George did interested me greatly and so my wife and I organised an initial meeting with him. Having already been in a small "stand alone" business for 20+ years and having previously negotiated 4 leases ourselves, we were not expecting to engage his services but were happy to hear what he had to say.

Meeting with George, however, was probably the best business decision we have made in 20 years. The experience, knowledge, contacts, facts and figures George brought to the table were invaluable. He saw potential in our business which was untapped and guided us through the maze of dealing with large shopping centre management and in particular the giants of retail leasing "Westfield".

Initially, George organised a meeting for us with his contact at Westfield Carindale. Being small operators, we would never have considered taking such a huge step into such a massive shopping centre. And, in fact, we believe we would never have even got a foot in the door, without George's intervention. George's contact at Westfield Carindale had such faith in him and his opinions, that he was happy to look at our business as a possibility for their new revamped shopping centre.

We are now successfully trading in Westfield Carindale under terms which we are very happy with. Without George's skills, efforts and hard work, none of this would have been even remotely possible.
